### *Expert Fabrication and Installation*

The skilled hands of our craftsmen fabricate your custom cabinetry and countertops with the finest attention to detail. They are dedicated to delivering exceptional service and they take a personal interest in each project. Our facility and modern equipment are designed to maximize quality and minimize cost.

### *Surfaces for Any Budget*

From exotic stones to cost conscious laminate, we offer a variety of counterop and surface materials. If you are purchasing natural stone we recommend that you select your slab by visiting one of our local import distributors, or for smaller jobs you may select from our extensive remnant inventory.

### *Custom Cabinetry is Truly Custom*

Your cabinetry order will be designed to match your exact specifications. We start with our standard features and add your selection of wood species, style, and finish. Upgrades and custom options are limitless!

### *Our Principles*

Our core beliefs and business foundation are based on sound manufacturing principles and a service centered experience.

### *45 Years of Manufacturing Experience*

Dennis Bates and Richard Barone come from the manufacturing sector where they have more than 45 years experience in operations and global sourcing. They have traveled to South America, Europe and Asia visiting quarries and setting up partnerships with suppliers.
